Dear Hiring Manager,

I am writing to express my interest in the Web Developer / Senior Web Developer position in your company. With more than 10 years of experience in web development, WordPress development, and full-stack application development, I am confident that my skills and experience would make me a valuable addition to your team.

Throughout my career, I have worked with various companies remotely and onsite, including Growmodo, Net Fusion Technology, Glue Digital, and other development agencies in Pampanga. My experience includes developing responsive websites, custom WordPress themes and plugins, Shopify and Webflow development, API integrations, SEO optimization, hosting management, and modern full-stack applications using ReactJS and NextJS.

I am highly proficient in HTML, CSS, JavaScript, PHP, AJAX, jQuery, MySQL, PostgreSQL, Supabase, and automation platforms such as Zapier. I also have experience using tools such as Figma, Canva, Adobe Photoshop, and Visual Studio Code for efficient collaboration and development workflows.

What sets me apart is my ability to adapt quickly, solve technical problems efficiently, and work independently in remote environments while maintaining strong communication and productivity. I am passionate about creating high-quality websites and applications that deliver excellent user experience and business results.

I would welcome the opportunity to further discuss how my background, technical skills, and dedication can contribute to your company's success. Thank you for considering my application. I look forward to hearing from you soon.

Sincerely,

Ed Paulo Pedro
